

SCORING THEIR *Personal Best*

Go Beyond the Typical Sports Camp

Young athletes travel across the globe as Sports Ambassadors, eager to get a new perspective on their favorite sport or to develop as leaders while they explore a wide range of sports and fitness activities. Overseas, they encounter new cultures, challenge themselves to become stronger athletes, and make friends all across the globe.

Don't Settle for Just Another Camp

As a Sports Ambassador, athletes take their game to the next level —overseas. Students train with European coaches and compete with international athletes, while sharpening their techniques and skills.

They also sharpen their minds by immersing themselves in new cultures. Sports Ambassadors go behind the scenes at international landmarks and explore world history hands-on—making the People to People program an unforgettable experience that challenges their bodies and minds.

Take Your Game to the Next Level

Student Athletes will compete and interact with students and coaches from as many as 20 European nations at one of our four tournaments in Austria and Germany:

- Soccer Cup
- Tennis Invitational
- Basketball Classic
- Volleyball Open

See the World in a New Light

Sports Ambassadors are not only athletes; they are also future leaders learning about the world. For this reason, the People to People experience includes pre-travel preparation and interaction with a delegation full of new friends. Exceptional educational materials to introduce the unique history and culture in which Ambassadors immerse themselves during the program.

Ambassadors also represent America in its best light by building friendships with international athletes and contributing to local charities in their host cities.
